

Conserving today to enrich tomorrow.

Not simply a passion to conserve and engage with our past in order to enliven our present, but also to re-imagine heritage for the future.

Julian Siu Principal

Julian Siu is a built heritage expert with extensive experience in providing pragmatic solutions for heritage projects. Client focused with great service delivery, he provides conservation advice, heritage impact assessment and heritage management reports for many diverse heritage assets. He has developed strategic management frameworks for heritage in the context of change for major infrastructure, urban development, precinct renewals and divestment.

Julian specialises in built heritage, adaptive re-use and heritage interpretation. His knowledge of heritage planning and advanced project management skills has seen him successfully coordinate major projects for state and Commonwealth government clients in NSW and Victoria.

Julian's advisory services have contributed to a multitude of signature development projects in Sydney and Melbourne. Julian is also adept in community consultation and engagement with Traditional Owner organisations. Julian enjoys collaborating with design professionals, site owners, developers and industry organisations to deliver projects that balance heritage conservation with urban renewal and creative design responses.
